Sean and Karl,

My technical team thought it would be helpful to provide a more detailed version of the analysis for our meeting tomorrow (attached). We look forward to discussing this with you and can certainly provide any additional information that might assist your review.

Looking forward to seeing everyone tomorrow,

Bob

That sounds good, Sean. I will tell my team to plan on 10:00 to noon, and if we finish early that will be a bonus for everyone! Ryan and I will be attending in person, and Amy Nelson with Anchor QEA will be calling in. Would you like us to head to EPA, or would you prefer to meet at the AQ office? Looking forward to it!

Bob

Thanks Bob; I think 930 or 10 to 11 or noon would be plenty of time, but I'll defer to you. S

Hi Sean,

Yes, I am available to meet tomorrow morning and appreciate the opportunity to discuss the updated IRIS values. I am working right now to find out if my technical leads at Anchor QEA are also available tomorrow morning. I will get you an attendee list later today. How long of a session would you like to schedule?

Thank you,

Bob

Good morning Bob,

After our call Friday about coordinating on issues leading up to the meeting between Tom and Sheryl

later this month, I learned that a NWN advocate had met with our senior leadership to discuss the Iris update and how NWN sees that relating to Portland Harbor. Since regional and HQ staff haven't had a chance to hear about this from NWN, would you be willing to meet with Karl and I (and likely CDM staff) such that we can better understand your position?

Karl and I suddenly have time available tomorrow morning--would that work for you on the phone or in Seattle? Unfortunately if the meeting is Friday or later Karl will be out of town, but I can update him if the timing isn't convenient for your team.

Thank you.

S
